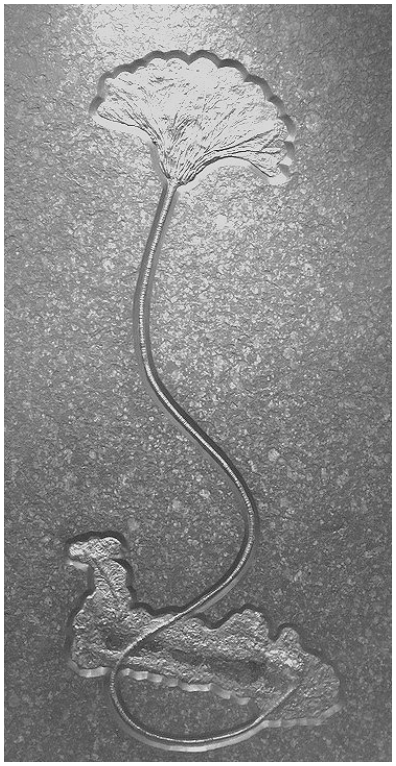
In Form a Temple: The Meeting Place

With Elissa Dell

November 15th & 16th 2025
2.30pm - 6pm

ONLINE



"Earth is not salt, nor grass,
nor the horse, not even the one who thinks.
Earth is what clothes Light in matter,
what transforms,
protects and envelops Light.
In this way, the teaching of LIGHT
Can be perceived even by eyes that do not yet see."
Hanna Dallos

These afternoon gatherings, will be about us as Craniosacral Practitioners, each unique. Through image, anatomy, embryology and the imaginal; the focus will be an exploration of bringing consciousness to our perceptual skills as we draw attention to the oneness of Spirit/Light/Life Force with matter: the en-spirited body.
There is no teaching of a doctrine or aiming for a given result but each of our experiences enhanced by our group intention can lead to a clearer perception of ourselves and other, our client.
Embryology and the process of embodiment provides a shared language and our adult form: our anatomical structures, a visionary language to explore and work with.

Max: 10 Participants

This counts as primary CPD for the CSTA
